Office Hours: 8 a.m. – 5 p.m., Monday through Friday
Web Address: http://honors.usf.edu

Honors Research Major

The Honors Research Major (HCRM) is designed primarily for Honors College (HC) students preparing for graduate or professional school, although it would be available to other HC students as well.

The HCRM is designed to be a second major. That is, in order to have an HCRM, a student would need to complete all requirements of a regularly offered USF major. (Credits = 30-36)

HCRM students would complete IDH 2010, 3100, 3350, 3600, 3400 and 4200, freshman English I and II, 2 semesters of mathematics and two semesters of a foreign language in order to meet USF General Education requirements. AP, IB, CLEP, dual enrollment and other acceptable forms of credit could be used to satisfy the English, math and foreign language requirements. (Credits = 18-42)

The HCRM would consist of 30 credit hours and would include courses to satisfy the USF Exit Requirements (IDH 4000 and six credits of IDH 4970).

The 30 hours would consist of 2 cognates, each containing a minimum of 12 credit hours.

Each cognate would require a research project of at least 9 credit hours; the remaining hours could be appropriate coursework, independent study or an increased number of research hours.

One cognate would be directly related to the student’s primary major; the second cognate must be outside the department of the student’s major.

The student shall have a separate research committee for each cognate, consisting of a mentor and two faculty “readers”. The HC Dean shall approve the mentor, and the mentor shall approve the “readers”. The committee and student shall design the cognate courses of study and submit the written plan for HC approval.

The committee shall ensure that the student has an appropriate background in scientific method/experimental design/research tools. Research project format shall be discipline appropriate and clearly represent the number of credits earned.

Formal prospectus/proposal and final presentations will be required of each student in both cognates.

No grade below “B” will be accepted towards the HCRM.

Honors Faculty

Dean: Stuart Silverman; Associate Dean: Georg Kleine (Instructors for the Honors courses are recruited from among the University’s outstanding teacher-scholars).
